

Acceptable Use Policy

4-6-2020

This Acceptable Use Policy ("AUP") governs your use of the Services and is incorporated by reference into Zinglo's Terms of Service. Unless otherwise stated, defined terms in this AUP have the meaning provided in the Terms of Service. Zinglo may modify this AUP at any time without notice.

The Services provided by Zinglo may only be used for lawful purposes. You agree to comply with all applicable laws, rules and regulations in connection with your use of the Services. Zinglo reserves the right to refuse service to anyone. Any material that in our judgment violates this AUP in any way may be removed from our servers (or otherwise disabled), with or without notice. **Failure to respond to an email from our abuse department within the specified time period in our email to you may result in the suspension or termination of the Services.**

A. Prohibited Uses

a. Infringement of Intellectual Property Rights.

- i. Use of the Services to infringe upon another party's intellectual property rights is prohibited. This includes, but is not limited to, the unauthorized copying or distribution of movies, music, books, photographs, software/warez or any other copyrighted work. Selling or offering to sell any counterfeit merchandise will result in the immediate termination of your account. Any account found to be infringed on the intellectual property rights

of others will be expeditiously removed or access to the material will be disabled. Any account found to be in repeated violation of this prohibition will be suspended or terminated.

- ii. If you believe that your intellectual property rights are being infringed, please email info@Zinglo.net. For copyright infringement claims, Zinglo follows the Digital Millennium Copyright Act ("DMCA") notice and takedown procedures.

b. Using a shared account as a backup/storage device.

You may not use a shared hosting account as a backup/storage device with the exception of one cPanel backup of the same account. Please do not take backups of your backups.

B. Unacceptable Material

a. Unacceptable material on our servers includes without limitation:

- Topsites
- IRC Scripts/Bots
- IRCD (irc servers)
- Proxy Scripts/Anonymizers
- Image Hosting Scripts (similar to Photobucket or Tinypic)
- AutoSurf/PTC/PTS/PPC sites

- Bruteforce Programs/Scripts/Applications
- Mail Bombers/Spam Scripts
- Banner-Ad services (commercial banner ad rotation)
- File Dump/Mirror Scripts (similar to rapidshare)
- Commercial Audio Streaming (more than one or two streams)

- Escrow/Bank Debentures
- High-Yield Interest Programs (HYIP) or Related Sites
- Investment Sites (FOREX, E-Gold Exchange, Second Life/Linden Exchange, Ponzi, MLM/Pyramid Scheme)
- Sale or distribution of any controlled substance without prior proof of appropriate permit(s)
- Prime Banks Programs
- Lottery/Gambling Sites
- MUDs/RPGs/PBBGs
- Hacker focused sites/archives/programs
- Sites promoting illegal activities
- Forums and/or websites that distribute or link to warez/pirated/illegal content
- Bank Debentures/Bank Debenture Trading Programs
- Fraudulent Sites (Including, but not limited to sites listed at aa419.org & escrow-fraud.com)
- Mailer Pro
- Push button mail scripts
- Broadcast or Streaming of Live Sporting Events (UFC, NASCAR, FIFA, NFL, MLB, NBA, WWE, WWF, etc)
- Tell A Friend Scripts
- Anonymous or Bulk SMS Gateways
- Bitcoin Miners
- PayDay Loan Sites (including any site related to PayDay loans, PayDay loan affiliate programs, etc)

b. Child Pornography Prohibited.

Content that is potentially harmful to minors, as determined in Zinglo's sole discretion, is strictly forbidden, including but not limited to, child pornography or content perceived to be child pornography. Any website found to host child pornography or linking to child pornography will be suspended immediately without notice.

c. Other Prohibited Content.

We reserve the right to refuse service to anyone. Any material that, in our judgment, is obscene, threatening, illegal, or violates our Terms of Service or this AUP in any manner may be removed from our servers (or otherwise disabled), with or without notice.

C. Unacceptable Resource Usage

a. You may not:

- . Use twenty-five percent (25%) or more of our system resources for longer than ninety (90) seconds at a time. Activities that could cause this excessive use, include but are not limited to: CGI scripts, FTP, PHP, HTTP, etc.
- i. Run stand-alone, unattended server-side processes at any point in time on the server. This includes any and all daemons, such as IRCD.
- ii. Run any type of web spider or indexer (including Google Cash / AdSpy) on shared servers.
- iii. Run any software that interfaces with an IRC (Internet Relay Chat) network.
- iv. Run any bit torrent application, tracker, or client. You may link to legal torrents off-site, but may not host or store them on our shared servers.
- v. Participate in any file-sharing/peer-to-peer activities
- vi. Run any gaming server such as counter-strike, half-life, battlefield1942, etc.
- vii. Run cron entries with intervals of less than fifteen (15) minutes.

- viii. Run any MySQL queries longer than fifteen (15) seconds. MySQL tables should be indexed appropriately.
- ix. Include the URL when using PHP include functions for including a local file. Instead of including 'http://yourdomain.com/include.php', use 'include.php' or '/home/username/public_html/include.php'.
- x. Force html to handle server-side code (like php and shtml) to help reduce usage.
- xi. Use https protocol unless it is necessary; encrypting and decrypting communications is noticeably more CPU-intensive than unencrypted communications.

b. INODES.

The use of more than two hundred and fifty thousand (250,000) inodes on any shared or reseller account may result in a warning, and if no action is taken to reduce the excessive use of inodes, your account may be suspended. If an account exceeds one hundred thousand (100,000) inodes it will be automatically removed from our backup system to avoid over-usage, however, databases will still be backed up as a courtesy in our sole discretion. Every file (i.e. a webpage, image file, email, etc.) on your account uses up one (1) inode.

User accounts that constantly create and delete large numbers of files on a regular base, have hundreds of thousands of files, or cause file system damage may be flagged for review and/or suspension. The primary cause of excessive inodes is typically due to users leaving their catchall address enabled, but never checking their primary account mailbox. Over time, tens of thousands of messages (or more) build up, eventually pushing the account past an unacceptable amount of inodes. To disable your default mailbox, login to cPanel and choose "Mail", then "Default Address", "Set Default Address", and then type in: ":fail: No such user here".

D. Zero Tolerance Spam Policy

- a. We take a zero tolerance stance against the sending of unsolicited e-mail, bulk emailing, and spam. "Safe lists," purchased lists, and selling of lists will be treated as spam. We may terminate the account of any user who sends out spam with or without notice.
- b. Websites advertised via spam (Spamvertised) may not be hosted on our servers. This provision includes, but is not limited to, spam sent via fax, phone, postal mail, email, instant messaging, or usenet/newsgroups. No organization or entity listed in the [ROKSO](#) may be hosted on our servers. Any User account which results in our IP space being blacklisted will be immediately suspended and/or terminated.
- c. Zinglo reserves the right to require changes or disable as necessary, any website, account, database, or other component that does not comply with our policies, or to make any such modifications in an emergency that we seem necessary at our sole discretion.
- d. Zinglo reserves the right to charge the holder of the account used to send any unsolicited e-mail a cleanup fee or any charges incurred for blacklist removal at our sole discretion.

E. AUP Violations

e. **Resellers.**

If there is a violation of this AUP by one of a reseller's client's account, Zinglo will suspend the website in question and will notify the reseller so that the reseller can terminate the account. Zinglo may, but is not obligated to, monitor the account or website for any subsequent violations. The occurrence of additional violations may result in the immediate termination of your reseller account.

f. **Direct customers.**

Your Services may be terminated with or without notice upon any violation of this AUP. If applicable, violations will be reported to the appropriate law enforcement agency.

- g. A failure to respond to an email from our abuse department within forty-eight (48) hours, or as otherwise specified in the email, may result in the suspension or

termination of your Services. All abuse issues must be dealt with via trouble ticket/email and will receive a response within forty-eight (48) hours.

- h. If you feel you have discovered a violation of our AUP please report it to: info@Zinglo.nl.
